

**NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION PRACTICE STANDARD**

OBSTRUCTION REMOVAL

(Ac.)

CODE 500

DEFINITION

Removal and disposal of unwanted, unsightly, or hazardous buildings, structures, vegetation, landscape features, and other materials.

PURPOSE

To safely remove and dispose of unwanted obstructions and materials in order to apply conservation practices or facilitate planned use of abandoned mine lands, farms, ranches, construction sites, and recreation areas.

CONDITIONS WHERE PRACTICE APPLIES

On land where existing obstructions interfere with planned use and development.

CRITERIA

Rock piles, boulders, stones, fences, hedgerows, abandoned buildings and structures, trash, and similar obstructions that would interfere with planned use and development shall be removed. All debris such as broken concrete and masonry, structural steel and wood, stones, stumps, slash, and sterile or toxic soil shall be disposed of so that they will not impede subsequent work or cause damage to offsite or other areas.

Disposal shall be by burning, burying, or removing to an approved landfill in an environmentally acceptable manner.

All required gully shaping shall be performed to specified dimensions and grades.

Fills shall be compacted as appropriate. The cover over buried materials shall be designed to be adequate for the planned use, treatment, and vegetation.

Appropriate erosion control practices shall be applied on disturbed areas.

PLANS AND SPECIFICATIONS

Plans and specifications shall be prepared in accordance with the criteria of this standard and shall describe the requirements for applying the practice to achieve its intended use.

The following list of Construction Specifications is intended as a guide to selecting the appropriate specifications for each specific project. The list includes most, but may not contain all, of the specifications needed for a specific project:

- IA-1 Site Preparation
- IA-3 Structure Removal
- IA-5 Pollution Control
- IA-6 Seeding and Mulching for Protective Cover
- IA-9 Drainage Tile Investigation and Removal
- IA-21 Excavation

OPERATION AND MAINTENANCE

An operation and maintenance (O&M) plan will be prepared for on-site disposal areas. The plan shall include guidance on periodic inspections and the repair of damage caused by precipitation or settlement.
